CPI YoY	4.27%
Unemployment rate	4.30%

Appendix & Sources

Data sources

No source / provenance metadata recorded in this snapshot.

Coverage notes

- Section 'thesis essay' was missing from the snapshot.
- Section 'thesis summary' was missing from the snapshot.
- Section 'risk summary' was missing from the snapshot.
- Section 'metrics' was missing from the snapshot.
- Section 'filings' was missing from the snapshot.
- Section 'charts' was missing from the snapshot.

Methodology

This memo combines: rule-based fundamental and macro risk scoring, a heuristic 1-year thesis generator, an LLM-authored narrative essay (or deterministic fallback when offline), and a curated set of chart artifacts. See the project README for details on each component and on how to tune thresholds in `config.RISK_THRESHOLDS` and `thesis_generator` weights.
